

The Division Song

by Rebecca Gooding

**When you want to divide a number-
Think what goes into and write it down
under!
Don't let yourself get bogged down with
frustration-
Just use division and some multiplication!**

**Divide, in the name of math!
Multiply, subtract, bring down, start all over!
Start all over...**

**As the problems get longer and longer-
Just let your math heart beat stronger and
stronger!
Don't be worried for division quizzes!
You've been taught by the queen of math
whizzes!**

**Divide, in the name of math!
Multiply, subtract, bring down, start all over!
Start all over...
Start all over...start all over!**
